Mr. Don A. Sultzbach, Executive Director
Austin-Bailey Health and Wellness Foundation
2719 Fulton Drive NW, Suite D
Canton, Ohio 44718

Dear Mr. Sultzbach,

It is with urgency that we write to you with a plea for funding from the Austin-Bailey Health and Wellness Foundation. Individuals and groups from the area generously grant Habitat for Humanity with monetary donations. Each time, we are able to partner with a low-income family to meet their long-term need for safe, affordable housing. We feel called to not only continue meeting the needs of those living in poverty, but to accelerate our efforts. Today, in Stark & Carroll Counties, the latest statistics show that more than **10,000** individuals are precariously housed. They have no permanent place to call home, and many are living a very transient existence. They turn to us as a last hope. We then, as the voice of the downtrodden, turn to kind people like you on their behalf.

As you know, Habitat for Humanity offers a 'hand up and not a hand out'. We work with qualified low-income families in partnership on their journey toward homeownership. In addition to classes on home maintenance and repair, each family participates in the construction of their home and the homes of others. After logging approximately 500 hours with us, they are able to purchase their home through a twenty-year, no-interest, no-profit mortgage. This allows safe, decent shelter at a payment they can afford. Every mortgage payment a family makes, goes into the 'fund for humanity' which funds the construction of future homes. Through homeowner payments, every dollar is multiplied to fund the future.

This past year we faced a challenge of partnering with two families with severe physical limitations. With your help, we met their need by building homes which provide the opportunity for independent living. Thank you for your support. **Recently, four more families with physical limitations have sought out our help and we in turn, look to you. All are in need of living conditions that will allow them to live independently and with dignity.** Handicap necessities which will add considerable cost above what we typically do are as follows: concrete access ramp \$1,000, railings \$200, countertop stove \$250, oven \$570, front loading washer and dryer \$1,400, barrier free shower stall, \$640, wheelchair accessible cabinetry in kitchen and bath \$500, grab bars for toilet area \$50, lever hardware for passage doors \$400, additional square footage to allow for laundry, electrical panel and furnace on main floor \$6,400, larger building lot \$1,000, adding approximately \$12,500 to the cost of a typical three bedroom house or a total of \$50,000 for all four homes.

We humbly request funding of \$50,000 or any amount you could offer. This would cover the additional livability costs associated with all four homes.

Please join in the effort to house God's people in need. Together, we can offer a 'tomorrow' of stable, affordable shelter to those less fortunate. In earnest we work and pray for the day when every man, woman and child will rest under the security of simple, decent housing. Thank you for your careful consideration. Please feel free to contact us if you have questions or need additional information.

Sincerely,

Beth Tonsky
Development Director

August 2006

The Eve ██████████ Family

Eve lives with and cares for her eighty-three year old mother, Brunetta. The home they share is old with very small rooms. The basement of the home is damp and there is significant mold-growth on these walls. After a rain, the water can actually rise ankle-high due to the lack of adequate drains. In addition to these issues, the home is two stories, and Brunetta is finding it increasingly difficult to climb the stairs to the bathroom and her bedroom.

Eve is employed as a home caregiver. It is a profession for which she is particularly suited. She is very compassionate and quickly bonds with each of her patients. She was recently the subject of a local newspaper profile after she recieved an award for outstanding service amongst health providers.

Eve is an energetic, enthusiastic, and positive individual. She is not shy at all about sharing her conviction that partnering with Habitat for a home is the biggest blessing of her life. She is grateful for the opportunity to procur housing in which her mother's remaining years can be comfortable and secure.

Jennifer [REDACTED]

Jennifer Peterson is a tremendously upbeat person who tries to always emphasize the positive. When you get to know Jennifer and something of her story, you can not but admire her for this.

At age sixteen, while out riding her bicycle, Jennifer was hit by a drunk driver. The driver was not content to simply skip and run. He picked Jennifer up and drove her to a farmer's field where he abandoned her. She was not discovered until the next morning. Because of being exposed to the elements and because so much time had elapsed, the doctors were not able to save her injured arm, and it was amputated. Jennifer has other physical limitations as well as a result of this accident.

As stated earlier, Jennifer has made a promise to herself to not dwell on the negative. She is an energetic and joy-filled person. She considers building a home in partnership with Habitat to be a blessing in her life. The home Jennifer currently lives in has several deficiencies: water damage to the living room and bedroom due to a leaky faucet, no screens in the windows, some drains are clogged, and she is not able to control the heat (the thermostat is in another unit). However the biggest advantage for Jennifer will be living in the ranch-style home, where she will not have to face steps and other obstacles that hinder her daily living.

Ken and Connie [REDACTED]

Ken and Connie are a married couple who reside in a home that does not adequately address the wide range of this couple's physical needs. Connie suffers from fibromyalgia, a form of arthritis, that leaves her with continuous muscle pain and fatigue. Ken is confined to a wheelchair due to serious injuries he sustained when he was hit by a drunk driver. Before the accident, Ken was an active and vital man. He enjoys woodworking and cooking. Both are literally, out of reach for him in the couple's current situation. Ken also has a daily routine of hygiene and physical exercises that he must go through in order to maintain his health. Their current home is small and makes this daily routine very complicated.

Neither Ken and Connie are able to work, but receive monthly disability payments.

Both of them are as a result of their physical limitations, somewhat subdued in nature, but they are really very earnest people, devoted to each other, and eager to be a part of the process of building a home in which their day-to-day living needs will be addressed and eased.

The Barbara [REDACTED] Family

Barbara is a single mother of a twelve year old son, William. Barbara and her son currently live with Barbara's mother. The home in which they reside is crowded, and William sleeps in the living room.

Barbara is ex-military and it shows in her "can-do" attitude and the energy and attention with which she approaches every task. She is a very positive person who loves to laugh and always looks for the bright side of every situation. This becomes especially impressive once you become aware that Barbara suffers from Multiple Sclerosis. This is a capricious and unpredictable disease. Those who live with it never know when they will experience a flare-up and how serious it might be. Barbara is currently recovering from one such flare-up. She doesn't like to dwell on her disease and doesn't allow anyone to pity her or expect anything less from herself than an all-out effort. Those who work with her will find her charming and fun to be around.

Building a home with Habitat will greatly enhance Barbara's day-to-day living. The home is planned to be as adaptable to whatever physical limitations may come Barbara's way in the future. Barbara counts her partnership with Habitat as a true blessing.

Dan DePasquale
HFH of Greater Canton, Inc.
P.O. Box 21234
Newmarket Station
Canton, OH 44701

Dear Dan,

This letter will confirm that HFH of Greater Canton, Inc. has been added to the roster of exempt subordinates included in Habitat for Humanity, Inc.'s group exemption under section 501(c)(3) of the Internal Revenue Code.

The enclosed copy of the group exemption letter received from the IRS provides evidence of Habitat's group exemption. That letter, together with this letter which confirms your affiliate's exempt subordinate status, provide evidence of your tax exempt status under section 501(c)(3) of the Code. Both these letters should be retained as part of your affiliate's permanent records.

Please note that if your gross income is normally more than \$25,000, you are required to file Form 990, Return of Organizations Exempt from Income Tax, by the 15th day of the fifth month after the end of your annual accounting period. Also, note that a significant penalty is imposed when a return is filed late. While filing of a group return by Habitat's national office is a permitted option, that does not appear to be a feasible alternative at this time.

The group exemption number assigned to Habitat by the IRS is 8545. This number may be provided to prospective donors, foundations, and other grant organizations as they request it, and is required on any Form 990 you may file.

In partnership,

Robert T. Mayo
